

## Public Information and Communications

Because the schools are an important aspect of this community and because the residents of the district are interested in the programs and activities of the schools, the Board shall make every attempt to:

1. Keep the public informed about the policies, administrative operations, objectives and educational programs of the schools.
2. Provide the means for furnishing full and accurate information, favorable and unfavorable, together with interpretation and explanation of school plans and programs.

In meeting these goals, the Board shall place great importance upon the role of the teacher as communicator and interpreter of the school program to parents/guardians and the general public. Further, it recognizes that there are times when direct communication between school officials and the community is necessary. At such times, the Board shall encourage and provide these opportunities.

The superintendent shall develop procedures and techniques for ensuring a continuous and free-flowing line of communication between the staff and the district's residents.
